S I R:

On March 26, 2008 an Information Disclosure Statement (IDS) was filed in the above identified application. It is noted that the second page of the IDS By Applicant was improperly scanned in PAIR as TRANS.LET. As a result, it appears from a review of the file, the NPL document listed on that second page has not been acknowledged by the Examiner as having been considered.

It is therefore respectfully requested that the Examiner acknowledge consideration of the NPL document filed on March 26, 2008. A copy of the second page listing the NPL document is enclosed herewith for the Examiner's convenience.

Respectfully submitted,
